REMOTES

A hand-held or vehicle-programmed opener is used for entry at the Roberts Road gate and the Laurel Road gate. At this time the only recommended remotes are Liftmaster 375UT or 380UT. They can be purchased on Amazon. Garage and gate access can be combined on these remotes.

THE 4 DIGIT RESIDENT GATE ENTRY CODE   # _ _ _ _

Each residence is assigned a **4-digit personal entry code** for the Laurel Road gate entry panel. Residents can request a **4-digit code** of their choice or you can be assigned a random code. The **4-digit code** must be preceded by a **#** sign. For example, **#1234**.

As a security responsibility to our community please only give your code to trusted family members and friends. Whoever has your code will have unlimited access to Laurel Hollow. **NEVER GIVE YOUR CODE TO A CONTRACTOR**. A resident can request a temporary 4 digit code for use by long term contractors. Once your project is complete use the Website or notify Bub Phillippe to remove the vendor code from the panel.

THE 3 DIGIT RESIDENT CALL CODE   _ _ _   _ _ _

Your **last name** and a **3-digit call code** have been programmed into the Laurel Road gate entry panel. By scrolling names in the directory, a visitor can determine your call code. Your code consists of a "0" followed by your Lot#. For example, someone living at Lot# 99 would have a gate code of 099. Others in your household can have their own 3-digit code if desired.

The visitor enters your **3-digit code** (**without** the **#** symbol) to initiate a call to your cell or landline phone. You will have one minute to push and hold **"6"** on your phone key pad for the gate to open. A tone indicates the gate is opening and the phone connection will terminate.

It is strongly suggested you practice using the **3-digit code** by visiting the Laurel Road gate with your cell phone. Look up your code on the panel and press the corresponding numbers. When your phone rings, push and hold the number **"6"** on your cell phone and wait for the gate to open. You may need to hold the **"6"** for a couple of seconds.

Caller ID from the gate reads "LAUREL HOLLOW" but 941-485-5796 with LH GATE can be a useful entry for your phone contact list. You can give your personal 3-digit directory code to any visitor before arrival.

LAUREL ROAD ENTRANCE OPTIONS are the resident's remote, the 4-digit personal entry code or the 3-digit resident call code.

ROBERTS ROAD ENTRANCE is for **residents only** and requires the use of a Resident's Remote Gate Opener. Some GPS navigation instructions mistakenly direct visitors to this gate.

EXIT GATES in the front and rear open automatically when a vehicle approaches the gate.
